Report for a Workshop on “Beyond Boundaries – Win in Life + AI for All”

Organized by

Department of Information Technology/

Department of Artificial Intelligence and Data Science

Date: 25th September 2025

Venue: Lab 5, IT Department, SCET

Faculty Co-ordinators

Dr. Vivaksha Jariwala

Dr. Dhruti Sharma

Dr. Vivaksha Jariwala

HoD, IT Department

About the event

The objective of this workshop is to motivate students towards personal excellence, help them develop life skills, and introduce them to the practical applications of Artificial Intelligence in various domains. This session aims to broaden their perspective both in life and in academics, providing a holistic learning experience.

Participation Details

The workshop witnessed active participation from students of the 4th Semester IT and AI-DS branches. Approximately 75 students attended this event. The event aimed at empowering students with personal development strategies and practical AI knowledge.

Event Highlights

The workshop was divided in two parts.

Part I: Win in Life

The first session was conducted by **Ms. Karishma Khubchandani (Founder of Miracle, Ex-Microsoft Tech Sales Leader)**.

She delivered an inspiring talk on “**Three Ways to Achieve Your Goals**”, focusing on:

- **Vision** – Building clarity for future direction
- **Courage** – Facing risks, challenges, and fears with confidence
- **Empathy** – Understanding others while striving for success

The session was highly interactive and motivational, leaving students inspired to pursue their goals with confidence.

Part II: AI for All

The second session was led by **Mr. Piyush Bharoliya (Founder of CPHFilms, AI Consultant)**.

He demonstrated **advanced features of ChatGPT** and explained how students can generate **efficient outputs with the help of AI**.

The session included **live demonstrations** and answered numerous queries from the students. It proved to be highly practical and valuable in making students aware of the power of AI in academics, projects, and future careers.

Outcomes

- Students gained **clarity and motivation** for personal growth and success.
- Exposure to **AI tools and ChatGPT** enhanced their technical knowledge.
- The workshop created an **engaging platform** where students actively participated through questions and discussions.

Conclusion

The workshop was a **grand success**, leaving students inspired and technically enriched. The dual focus on **life skills** and **AI applications** provided a well-rounded learning experience.

Students not only acquired valuable knowledge but also felt motivated to implement these learnings in their **academic, professional, and personal journeys**. The enthusiastic participation and questions raised by students reflected their eagerness to explore AI-driven opportunities while also focusing on personal growth through vision, courage, and empathy.

Such initiatives create a strong foundation for bridging **classroom learning with real-world applications**, and SCET remains committed to hosting similar impactful programs.

We express our heartfelt gratitude to the Provost, Principal, Expert Speaker of the session, faculty members and dear students for attending the event and making this event a success. As we look forward to the coming years, we aspire to continue this tradition of spreading knowledge and incorporating them for betterment of society.
