

Sarvajanik College of Engineering & Technology

Information Technology Department

Subject : Regarding the Industrial Visit at Venus Jewels (13 April 2007)

We the Faculties (Mr. Hiren Vavaiya, Mr. Tushar Gohil) Along with our Department Incharge Prof. Niteen B. Patel and Final Year Information Technology Students has visited one of the premium Diamond Manufacturing Firm of Surat namely **Venus Jewels** proprited By Mr. Sevantibhai Shah.

It was a one day Visit which included the Demonstration of the Whole Diamond Making Process which is governed by Manul efforts and also well Supported by Computerized Automization System. We have also seen their DataStore which is fully loaded with very High Storage Database Servers. They have Video Cameras at so many places which monitors the diamond making process. So if some threats are found then they can be well Debugged. They are storing almost 30 days of live videos in the Database Servers which requires very very high Storage.

They also have very well managed Computer Networking Infrastructure with Heavyweight IBM MainFrame Machines.
