

CONVERSE 2014: Report

INFORMATION TECHNOLOGY department conducts "Converse, Have your say..." an annual Inter-Department level multiple events technical contest every year since 2007. This year, CONVERSE-2014 received overwhelming response in all its events and was a grand success.

"CONVERSE" the word itself implies spoken **interchange of thoughts and ideas**. We focus not only imparting curriculum part to the students but also to apply their knowledge in co-curricular activities. Converse includes various events like:

- **PY-IT:** A Virtual Placement Competition
- **Image-IT:** A Poster Making Competition
- **Reverse Coding:** C/C++ Coding Competition
- **Quiz IT:** An I.T. Quiz Competition and
- **Fun Zone**

INAUGURATION FUNCTION

The inauguration took place on 11th September at TIFAC hall. The function started with a prayer, followed by an inspirational speech by Prof. Mita Parikh, HOD, I.T. Dept., and a career-guidance speech by the chief guest Mr. Hasmukh Agrawal, Director of Futurism, Surat. The detailed schedule and participation guidelines of each event were then announced.

The details of all events and participation in each are as follows:

PY-IT: A VIRTUAL PLACEMENT COMPETITION

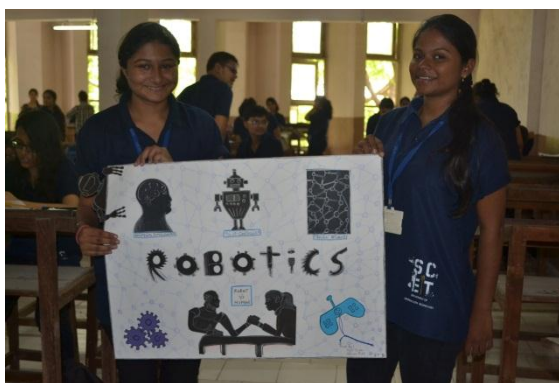

"Virtual placement" the event mainly focuses on giving experience to the students how to face their final interview. As we are students of Information Technology, the future Software Engineers, we need some experience of how to face interview of software companies where our technical and soft skills are tested. The event composes of the initial online test containing quantitative aptitude and technical aptitude questions which was held on 11th September. After the 1st round comes the group discussion, where students get an opportunity to present their presentation skills, the topic and even speak in a team. Then comes the personal interview where the qualitative research of the student is done. Here they will get experience of how to face the final round of company interview. Rounds 2 and 3 were held on 12th September.

We received overwhelming response of students of **I.T., Computer and MCA** departments for taking part in this event as it gives the feeling and experience of facing actual company interviews. Total **80 students participated** in the event. We received exiting responses from the students that they had a great experience of how they will face interviews in industries in future.

IMAGE-IT: A POSTER MAKING COMPETITION

Students make a poster for a theme given such as Cloud Computing, Mobile Programming, Robotics, Cyber Security, Distributed System and Go Green. The event was held on 11th September. The posters add visual interest of a topic and also help in improving creativity for the students. Through the visual drawing they can explain about the topic in more interesting way.

Total number of participation in this event included **29 teams** (2 members per team). Students of **I.T., MCA and Chemical** departments took part in the event.

REVERSE CODING: C/C++ CODING COMPETITION

Reverse coding the event to check the programming skills of the students in C and C++. A particular output will be given to the students and students have to write the appropriate code to generate the output. Our enthusiastic students took part in the event in the number of **64** from I.T., Computer and MCA departments.

QUIZ-IT: AN I.T. QUIZ COMPETITION

The main attraction of CONVERSE is QUIZ-IT event. The event Quiz-IT plays a vital role in measuring the growth in knowledge, abilities and skills of the students in their core topics of Information Technology. The event starts with two Online Tests for the students in a group of 2 and further shortlisted 4 teams of students in online test will be qualified for the final fighter, buzzer rounds which will be more nail biting and more interesting for the audience also. The topics for QUIZ-IT range from basic computer fundamentals, C programming, IT related general knowledge in the first phase and advanced topics like database, networking, web technologies and computer graphics in the second phase. Total **58 teams** (2 students per team) appeared for the first round. 40 teams went to the second round. Final 4 teams played the final rounds.

FUN-ZONE

Last but not least students are not only involved in testing their technical skills but every mind should have relaxation they are involved in the play time. Various games such as Counter strike, NFS, Photo hunt. Treasure Hunt is added to this event. As expected, maximum participation was received in this event. In treasure hunt, **60 teams** (3 members per team), in photo hunt, **50 teams** (2 members per team), in counter strike, **15 teams** (2 members per team) and in NFS **24** students have participated from various departments.

VALEDICTORY FUNCTION

After successful completion of all the events, CONVERSE-2014 was ended with a valedictory function held on 12th September at N.J. seminar hall, SCET. In all the events, winners and students coordinators and volunteers were awarded with prizes and certificates.

We heartly thank the entire SCET family for making CONVERSE-2014 a great success.
