These are the great words by our Bapuji & James Russell Lowell. We are proud to say that SCET library is very huge size of such beehive. To ensure the maximum utilization of the treasure, this manual for easy access of library resource has been created. The purpose of this manual is to aware the stake holders especially newly joined students and staff members about various ways of accessing the SCET Library.

We hope this manual would help in diving into SCET library for searching of relevant information.

Prof. Pariza Kamboj, Library Team, Convener

Prof. Dhanalakshmi Manickaraj, Member

Prof. Shweta Doctor, Member

SCET LIBRARY

A library is an organized collection of sources of information and similar resources, made accessible to a defined community for reference or borrowing. It provides physical or digital access to material, and may be a physical building or room, or a virtual space, or both. SCET library is well equipped with books of all discipline, back volumes and current international and national journals. College library functions under the open access system having more than 33,809 books. A good number of quality National/International journals and magazines are being subscribed in the library in hard bound form and/or online.

Vision:

SCET library will be a knowledge temple with all necessary modernization and an ultimate collection of books of good authors and renowned publishers on all concerned technologies."

Mission:

SCET Library provides upgraded information and tools required to meet the faculty, graduate and undergraduate students' needs. With all necessary modernization, it addresses the changing information needs of our students and faculty and provides quality services to their users.

Objectives:

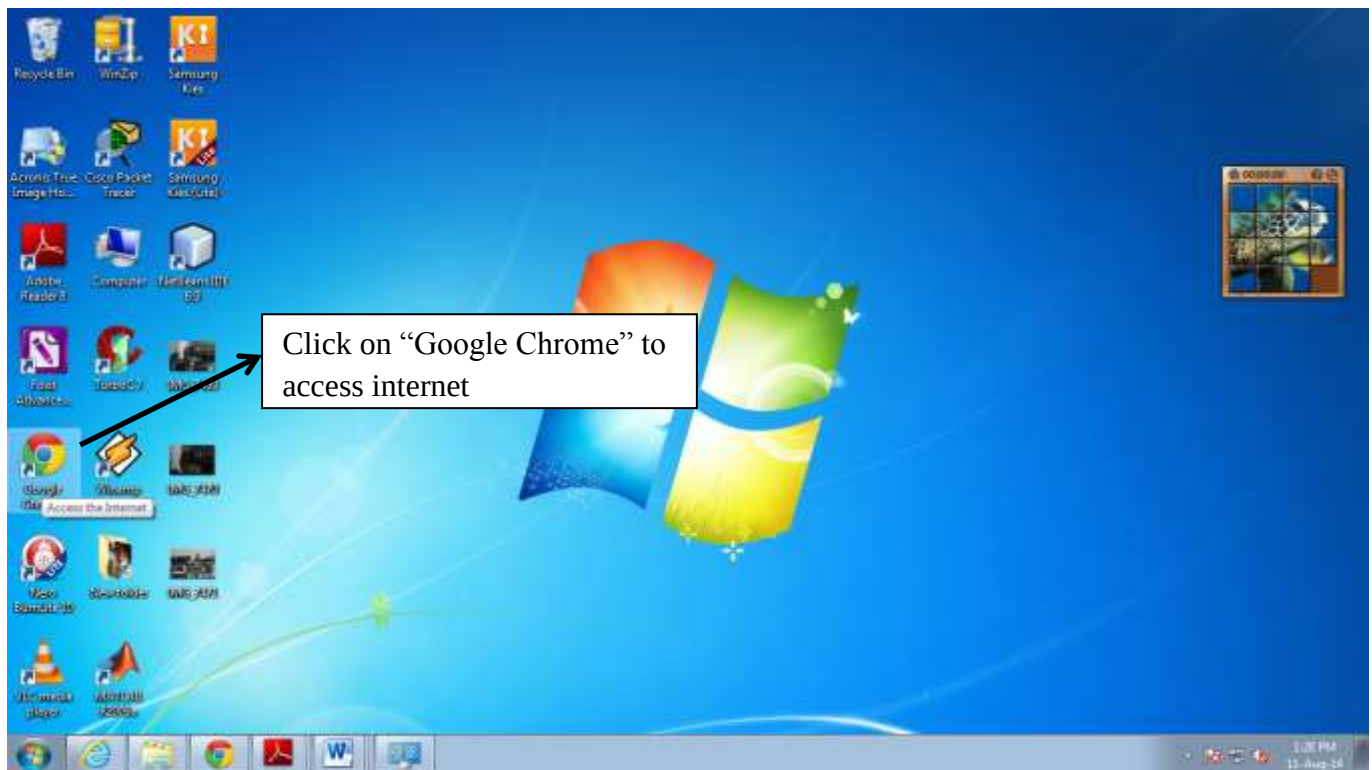

1. Ensure optimum access to and delivery of information to all users.
2. Contribute to educational excellence.
3. Serve knowledge and information needs.
4. Respond to instructional, teaching, research, and information needs.
5. Provide a truly global information environment.
6. Upgrade and assessment of e-information, digitization and scanning facilities.

Library committee has been constituted in college where one faculty member represents each department to enrich, update and modernize the library resources.

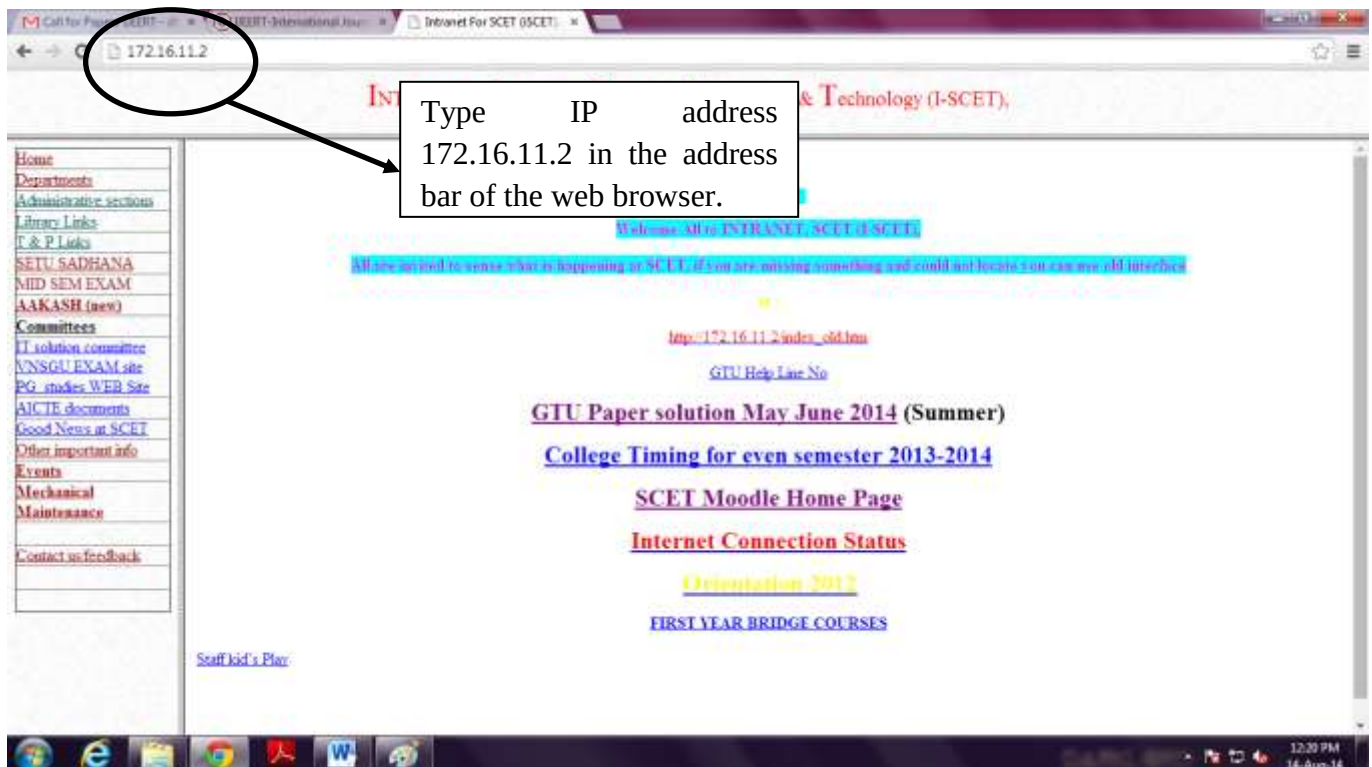

S.No	Department	Faculty Representative
1.	Electronics Engineering Department	Prof. Chhayaben Suratwala
2.	Electrical Engineering Department	Prof. Naman Bhatt
3.	I & C Department	Prof. Jayana Rana
4.	Textile Processing Department	Prof. Shweta Doctor
5.	IT Department	Prof. Dhanalakshmi Manickaraj
6.	MCA Department	Prof. Alpa Shah
7.	Computer Engineering Department	Prof. Dipali Kasat
8.	Chemical Engineering Department	Prof. Vishad Desai
9.	ASH Department	Prof. Bhumi A. Shah
10.	Civil Engineering Department	Prof. Minakshi Vaghani

HOW TO ACCESS SCET LIBRARY?

- 1) Open any web browser available in your system to access the SCET INTRANET.

- 2) Type the IP address 172.16.11.2. Once you enter the ip address in the address bar SCET intranet homepage will be opened.

- 3) In the left hand side of the window from the links click on the fourth link “**LIBRARY LINK**” to open “Webopac”.

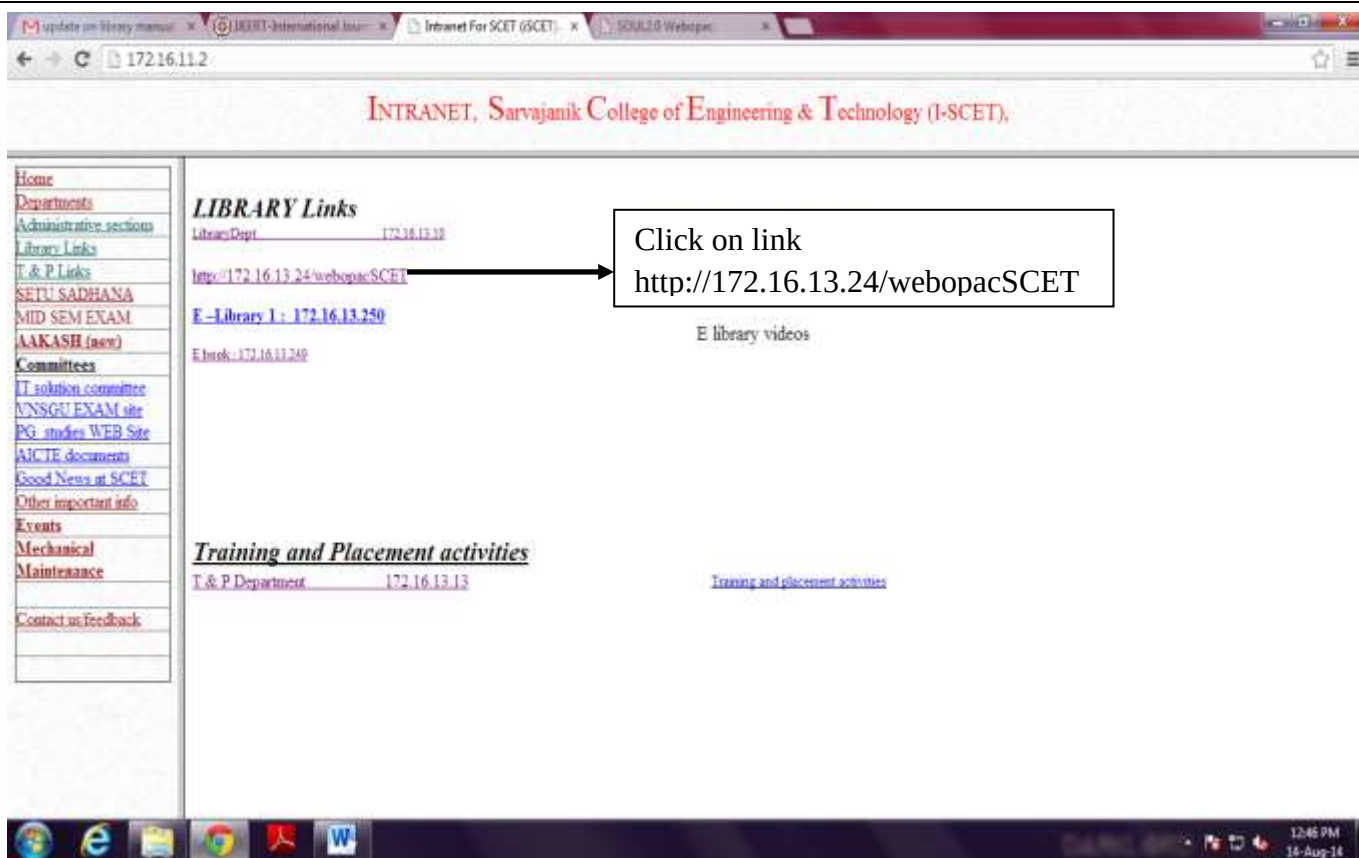

Web OPAC is Web Open Public Access Catalogue which is a search engine for finding any catalog information of SCET library.

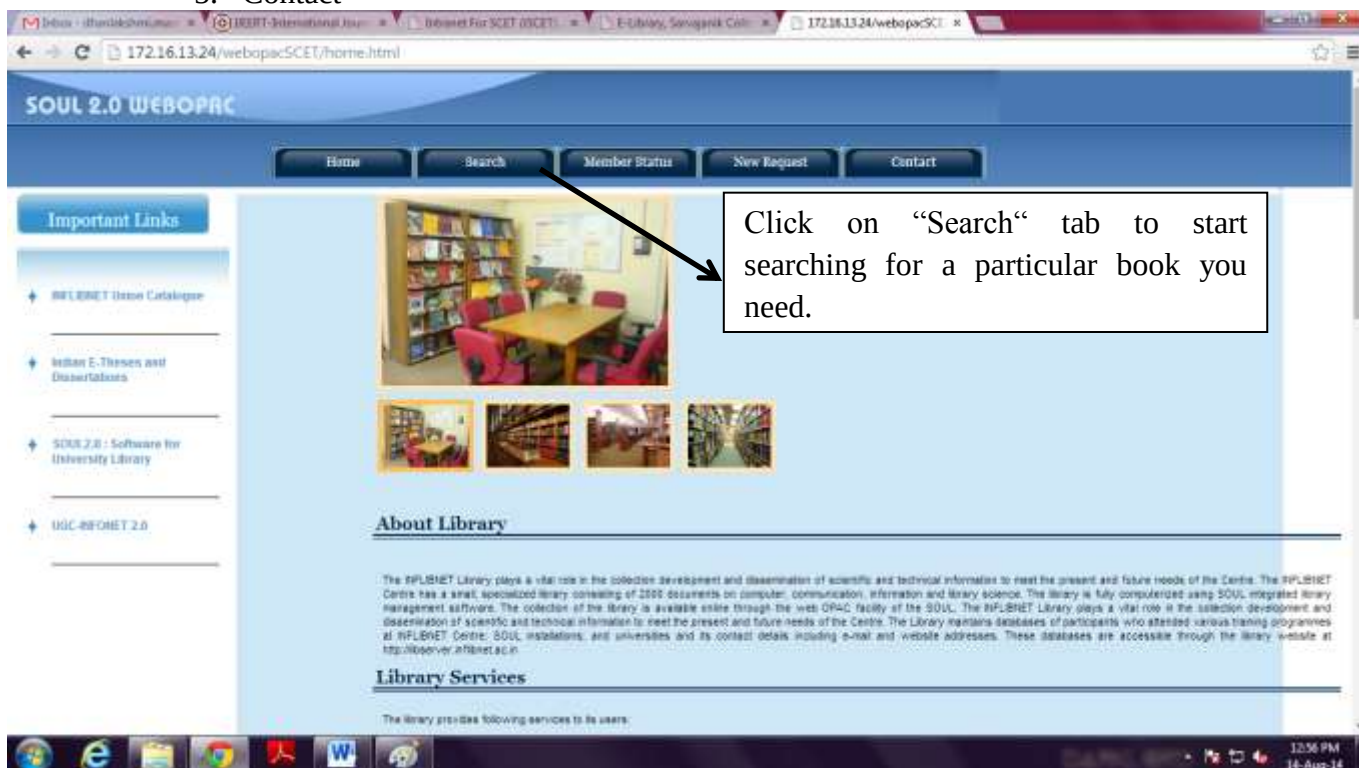

Features of WEBOPAC:

- i. Search Facility: You can search any book by specifying author of the book, title of the book.
 - ii. Status of the book: It gives status of the book whether book is on shelf or issued.
 - iii. Number of copies available in library.
 - iv. Due date for borrowed books.
- 4) After clicking on the link “Library Links” the list of library links will opened at the right hand side pane of the window.
- 5) After opening the library links window click on the link <http://172.16.13.24/webopac/SCET> to open the search engine WebOPAC.
Click on link <http://172.16.13.24/webopacSCET>

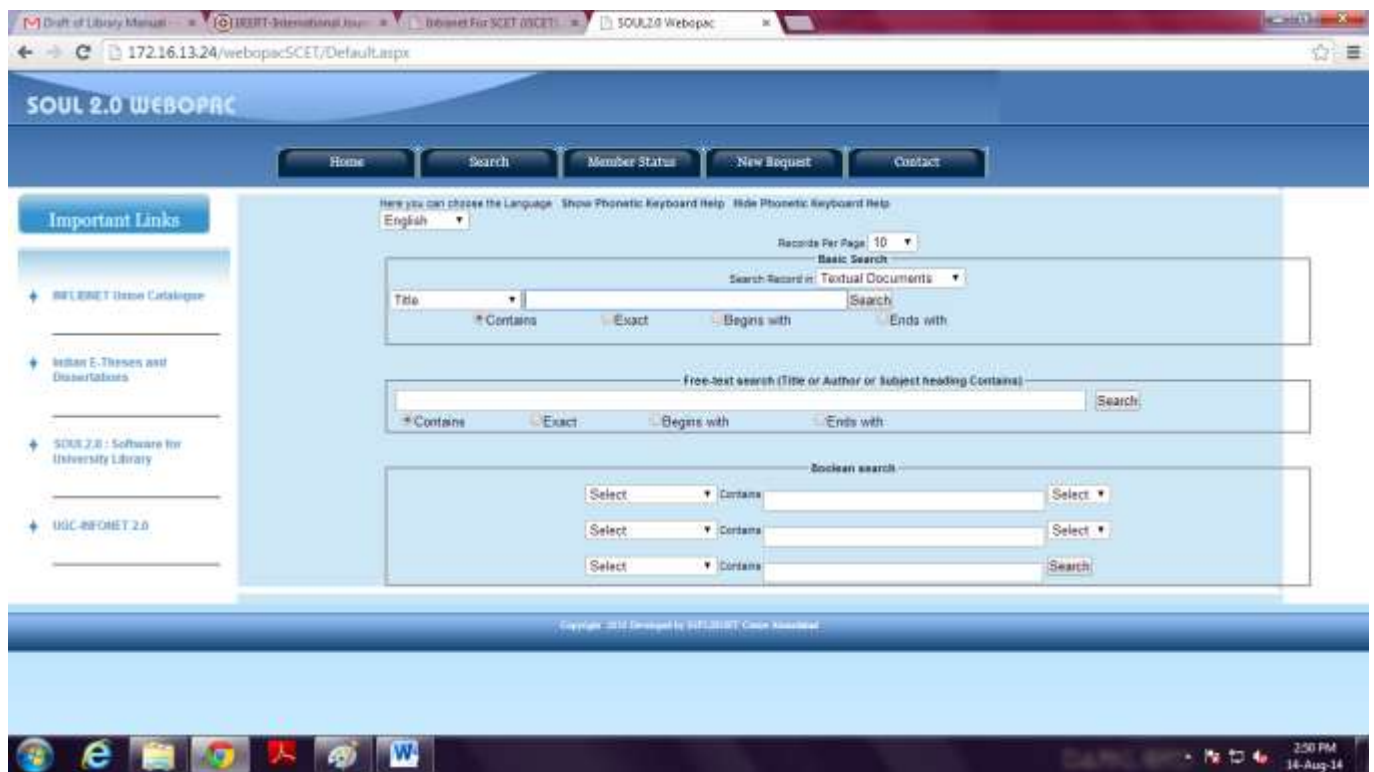

One also can directly type 172.16.13.24/webopac/ from any browser in SCET campus to open the webopac home page.

- 6) After you click on the webopac link the home window of webopac will be opened as shown below.
- 7) Here comes the main step how to search for a particular book through webopac. There are 5 tabs available in the home window of webopac.
1. Home
 2. Search
 3. Member Status
 4. New Request
 5. Contact

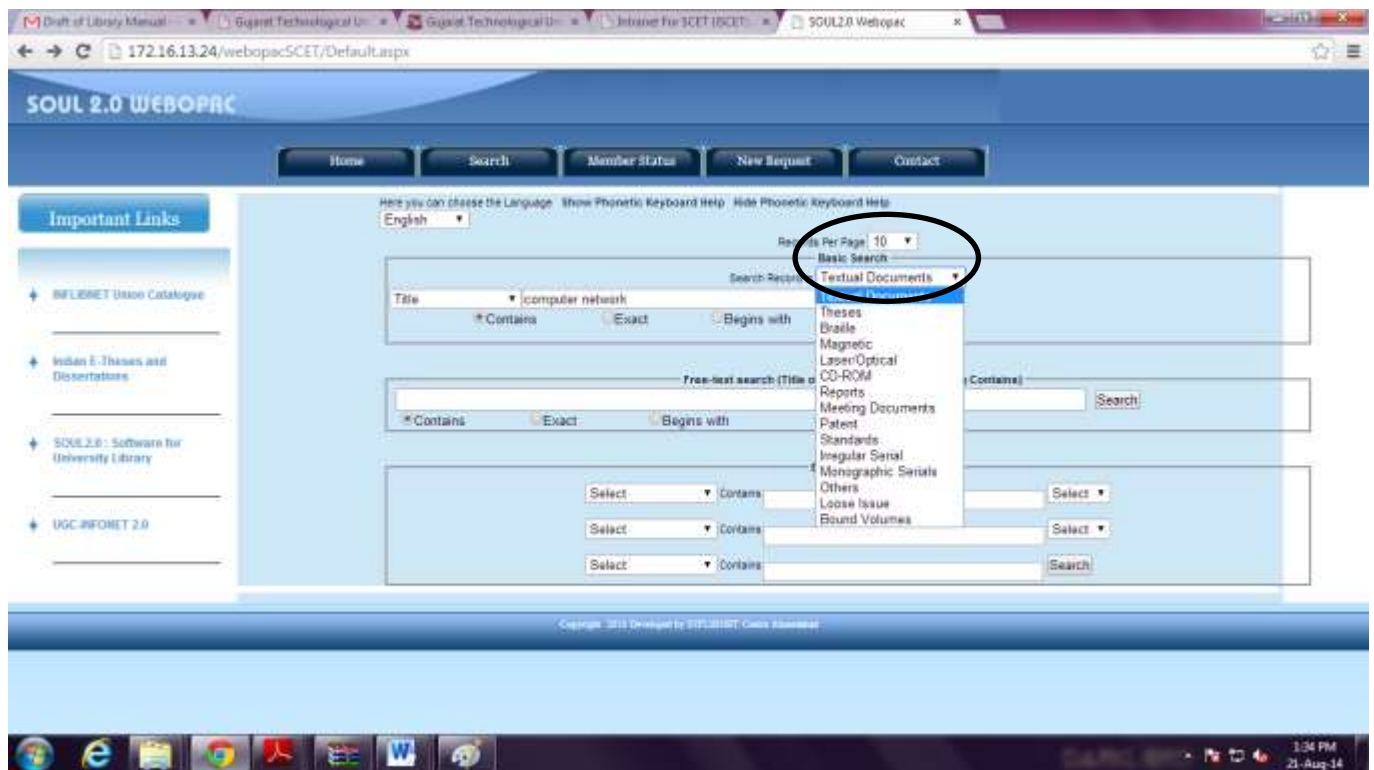

8) After clicking on Search tab a window to search for a book opens.

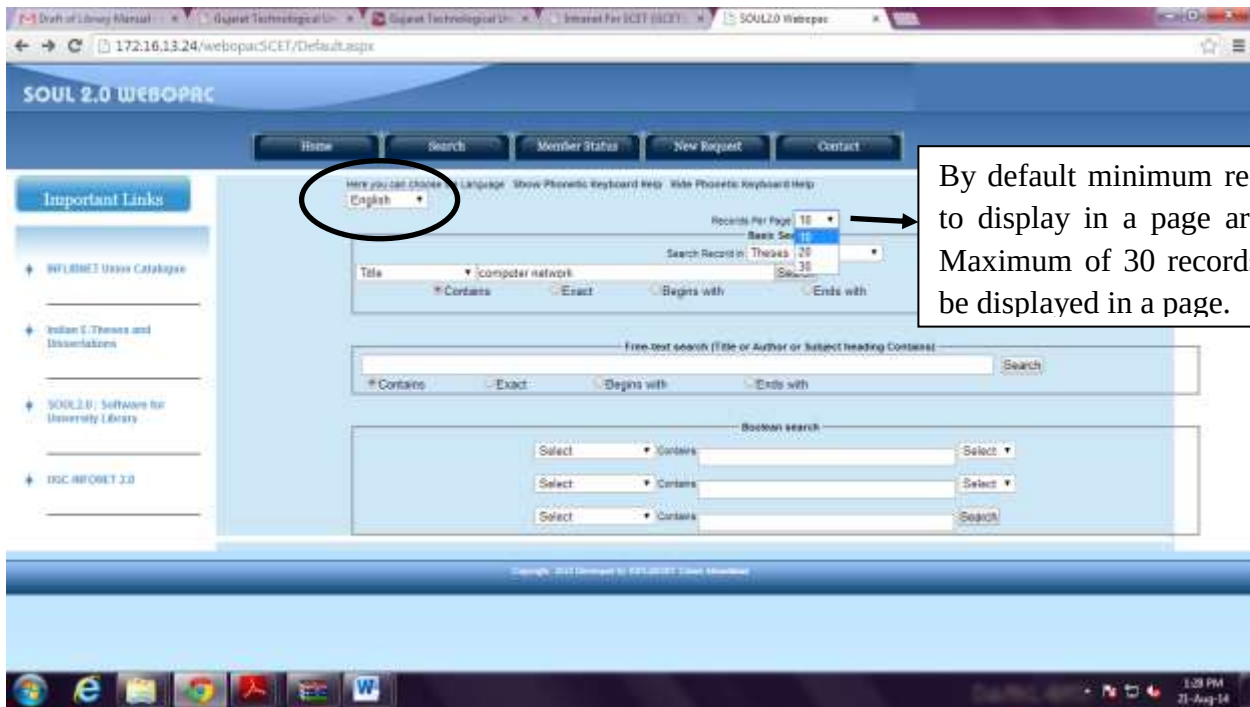

How to search Books?

9) To search for a book click on “Textual Document”.

- 10) In the search window default language for searching books is English and minimum records that will be displayed 10.
- 11) If user wants to display more records in one page it is possible to increase by selecting a bigger value in drop down box. Maximum of 30 records can be displayed on a page.

- There are four options to search for a book:

Contains: This option can be selected if user doesn't know any word/s of book instead full name.

Exact: This option can be selected if the user knows the exact name of the book.

Begins With: This option can be selected if the user knows the beginning word of the book.

Ends With: This option can be selected if the user knows the ending word of the book.

Basic Search

Search Record in Textual Documents

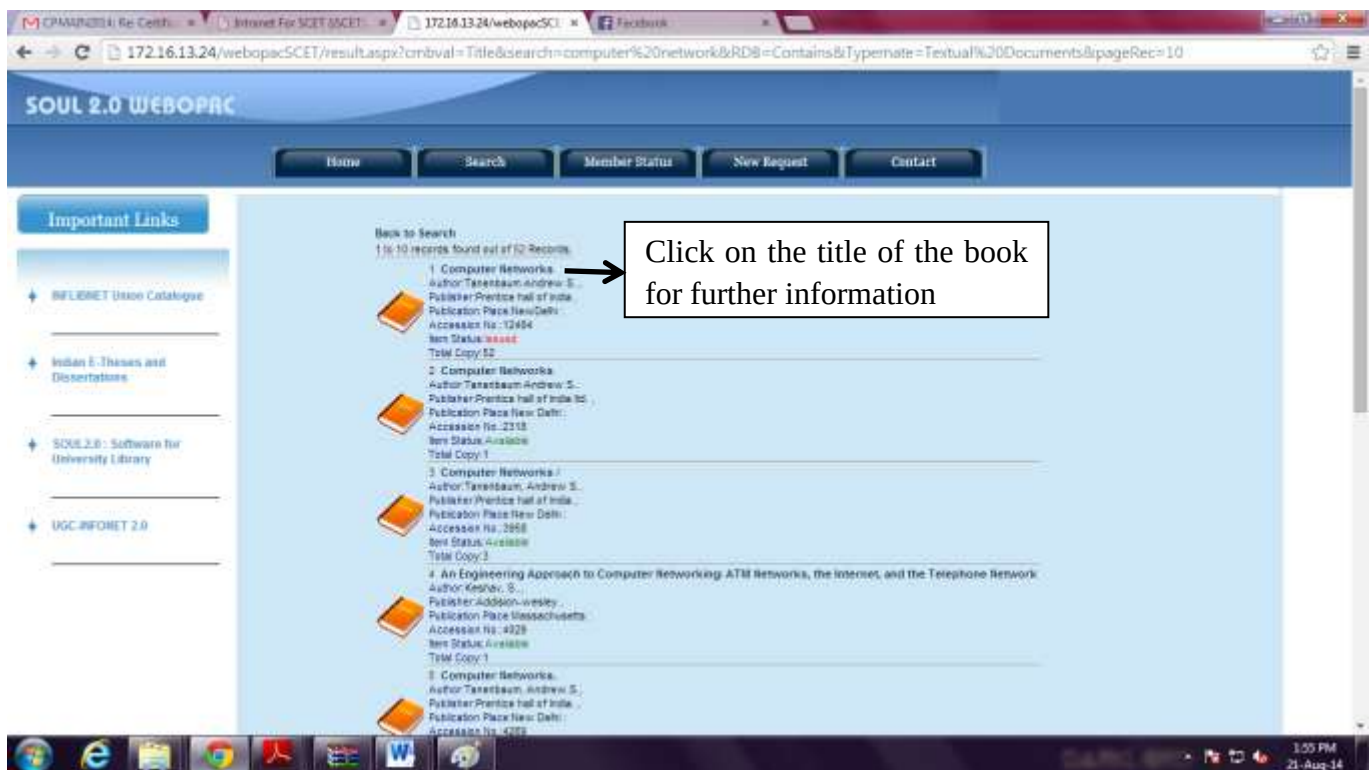

Title computer network Search

☒ Contains ☐ Exact ☐ Begins with ☐ Ends with

12) Type the title or any word of it in the tab shown as per convenience:

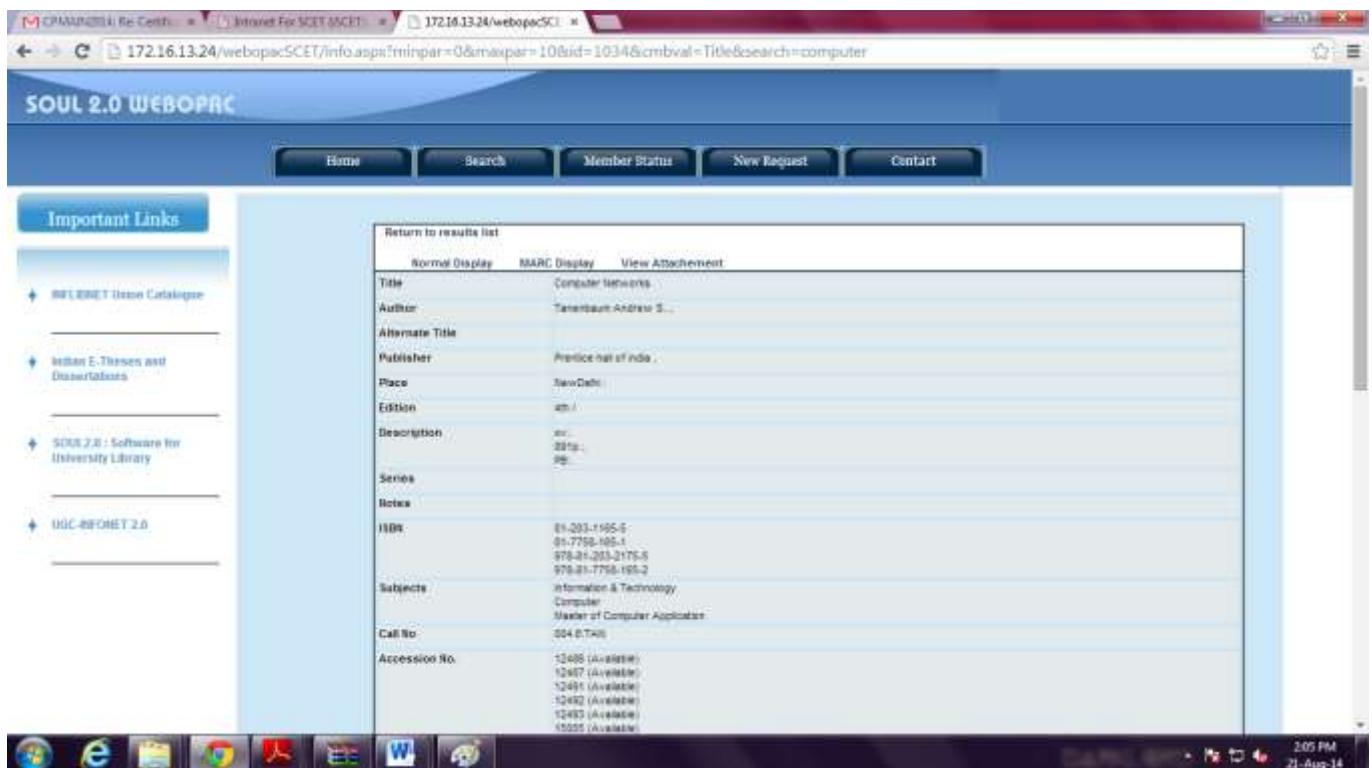

- The search criteria can be according to title, author, accession number, etc. as given below.

13) After clicking on Search button the list of books opens.

- Each book contains the author name, publication, accession number, status of the book (either it is available or issued) and total copies of the book.

14) To know further more details of a book click on the title of the book.

E- Resources

SCET library also provides access to E-resources including online journals E-books and NPTEL lectures to all users. All resources are IP based and can be accessible in SCET campus only.

How to search E-books?

WAY I:

Go to SCET intranet by typing IP address 172.16.11.2 in the address bar of your web browser.

- 1) Click on the link **E book: 172.16.13.249.**

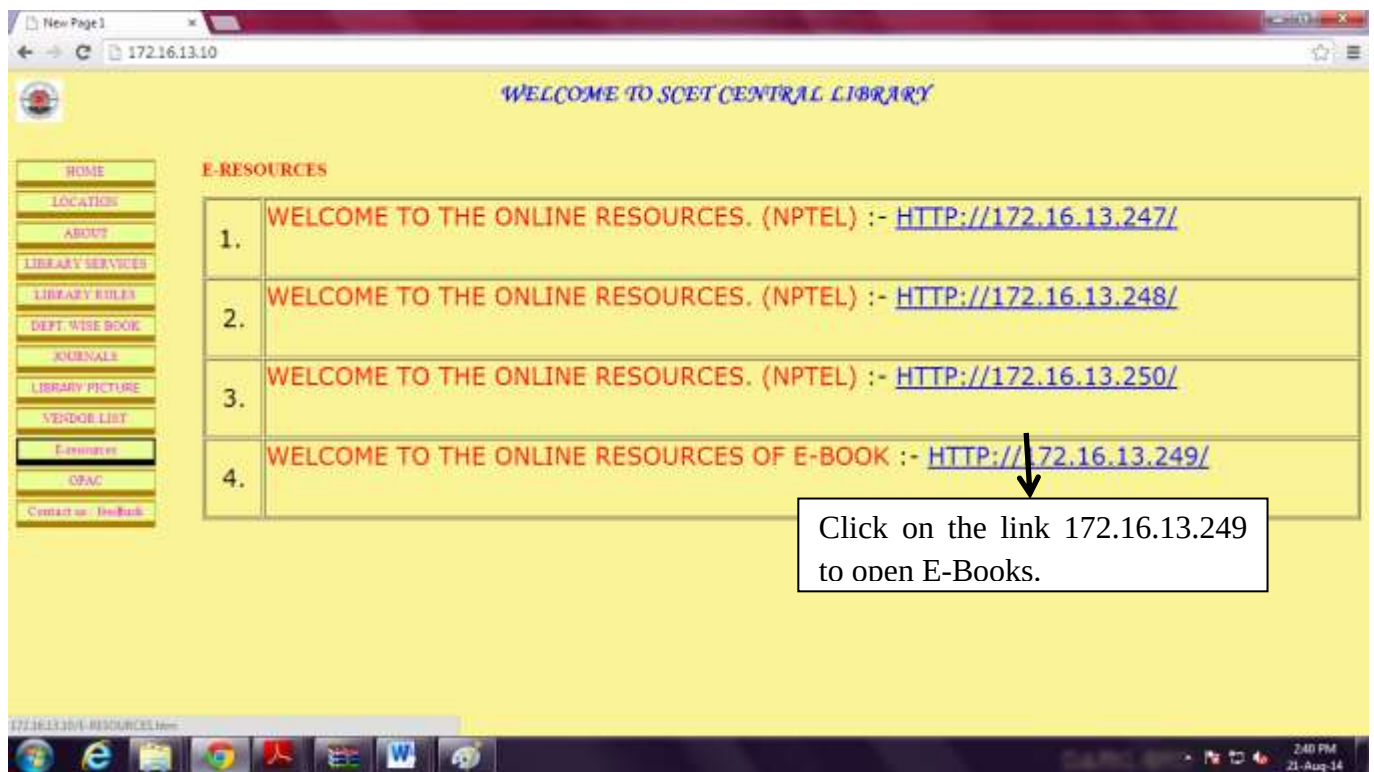

WAY II:

- 1) Type IP address 172.16.13.10 to open SCET library home page.

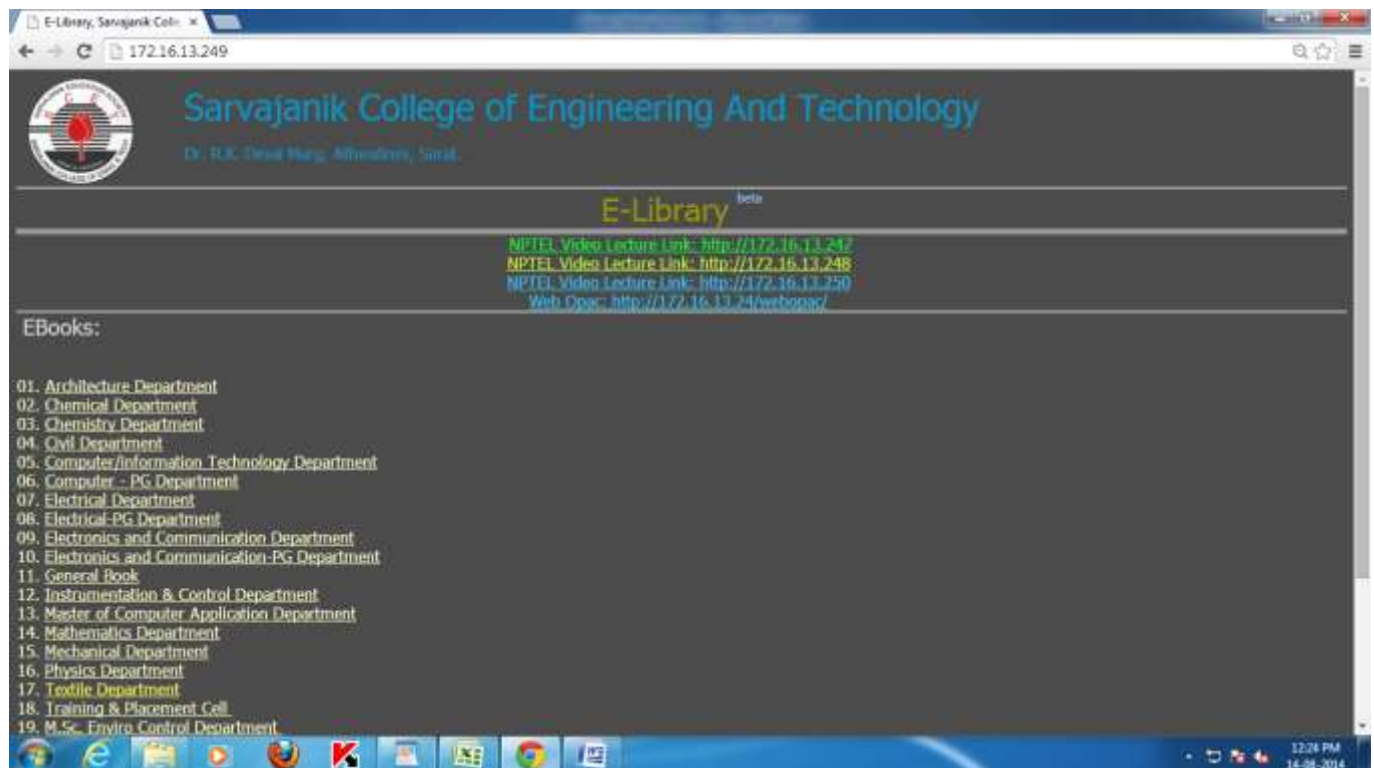

2) Click on E-resources on the left hand side of the window.

WAY III:

1) Type IP address 172.16.13.249 in the address bar of any web browser.

2) Click on the respective department and it will display list of all E books.

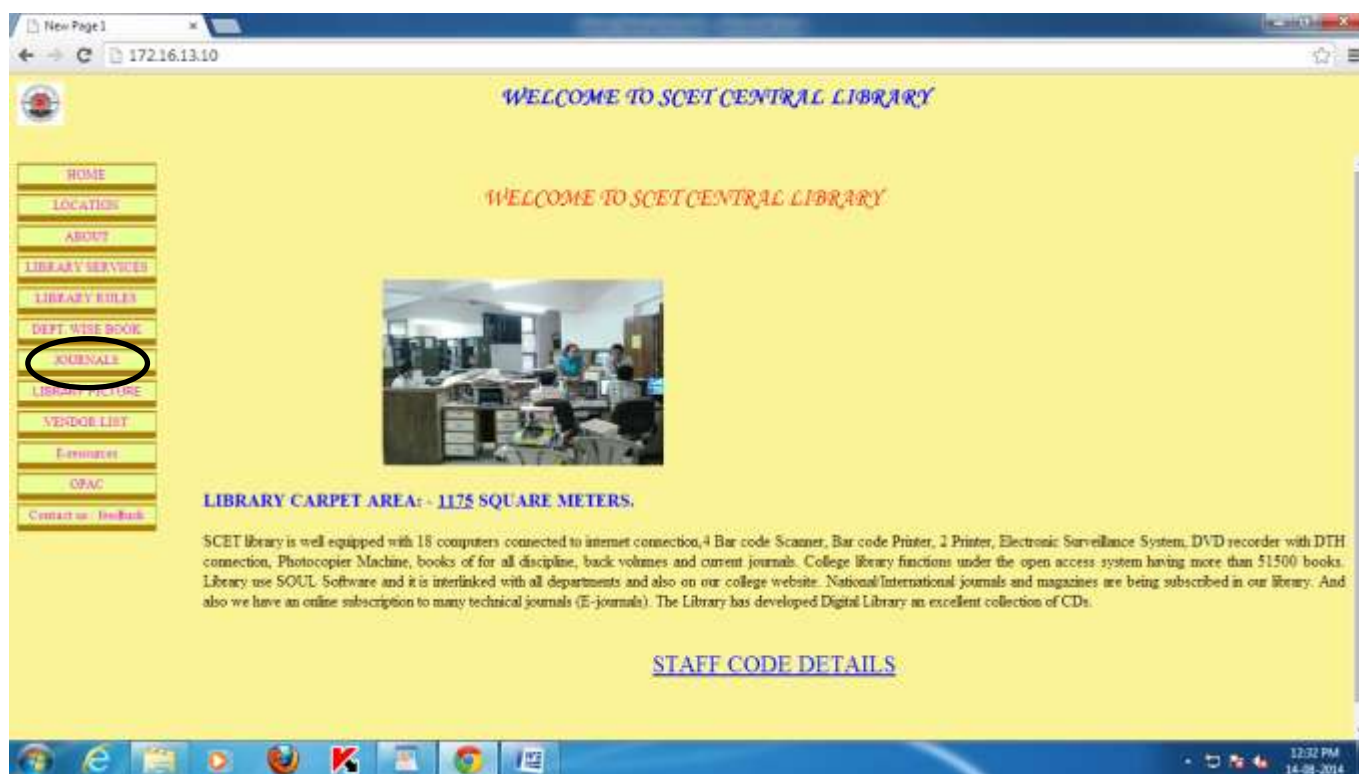

3) To open a particular book click on the title of the book.

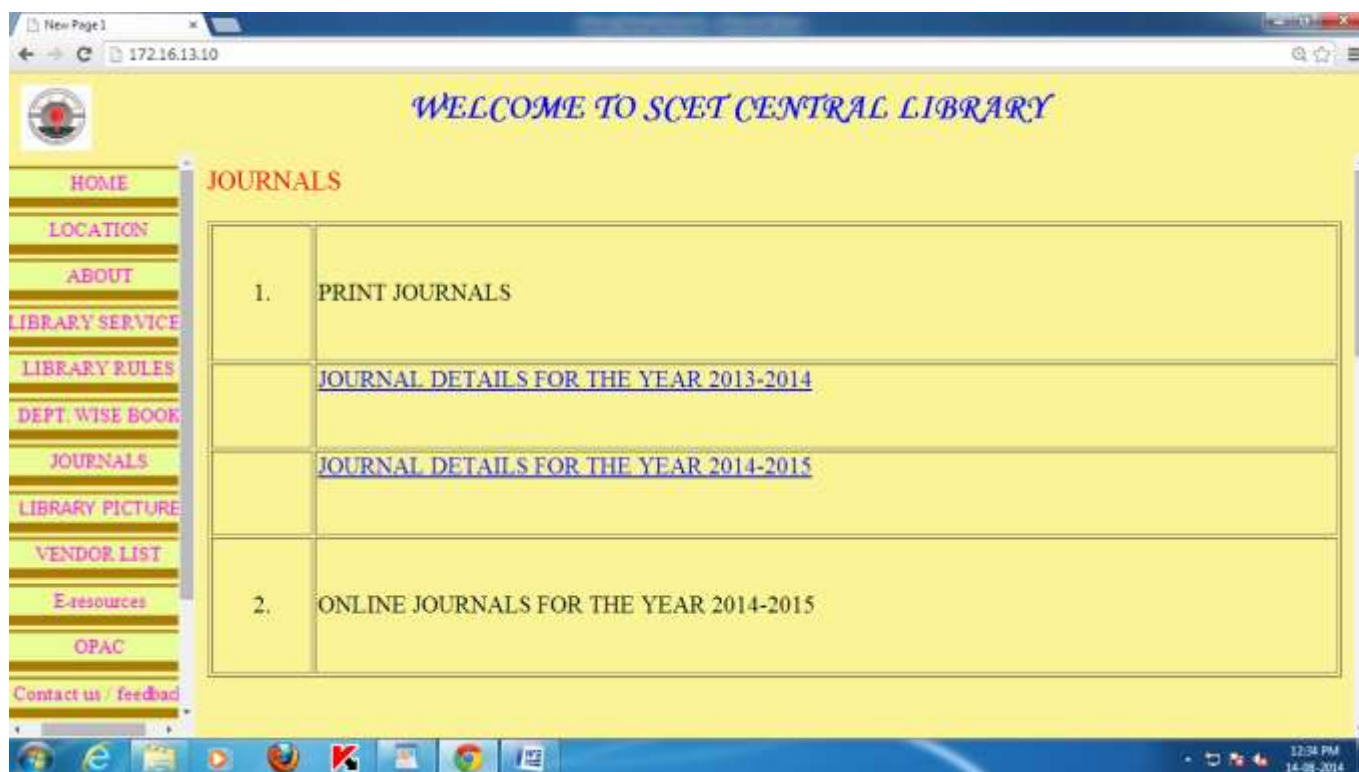

How to search journals?

1) Search “172.16.13.10” in any web browser (in SCET campus). The following page opens:

2) Select “journals” from the left column.

- 3) Select “**print journals**” to get idea about the hard bound national level and international level journals related to your respective department. You only can get the names of the print journals. The accessibility will be available through library reference section in hard copy.

How to search E-journals:

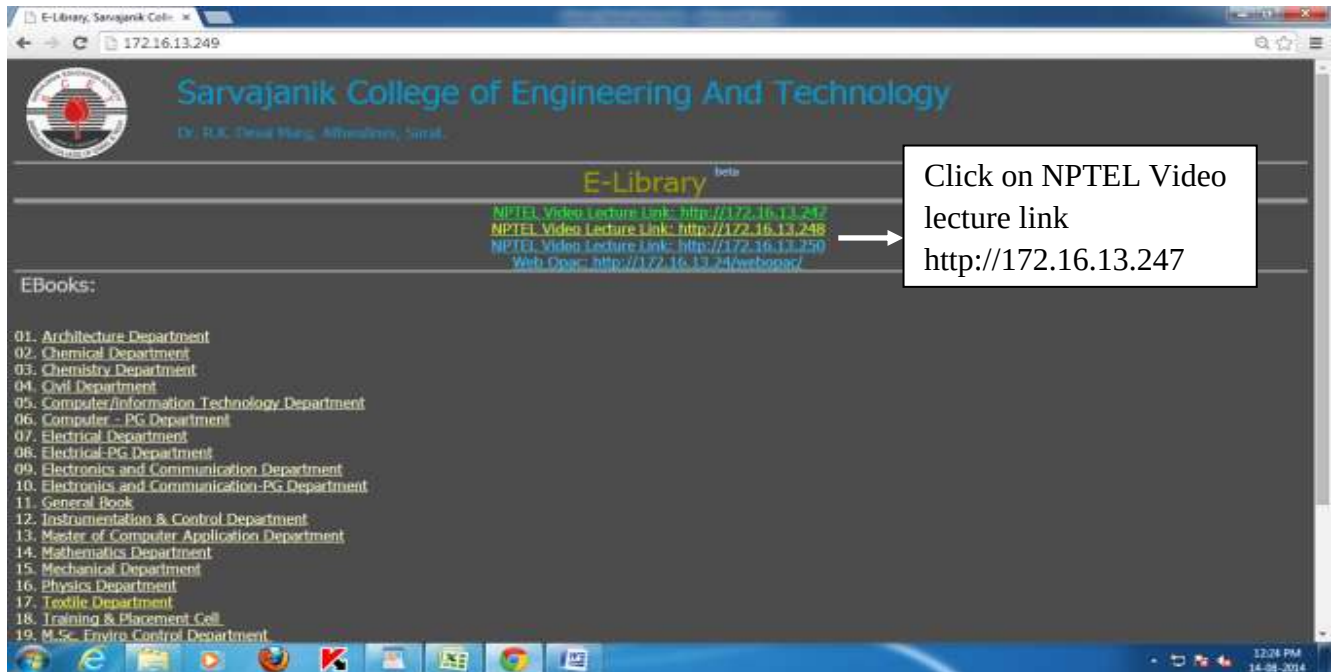

The details of the E-journals available at our college are as follows. Any journal can be accessed by going to the website provided (As per the subject areas).

Sr. No.	Publishers	Subject Areas	Website Address
1.	j-Gate	J-GATE Engineering and Technology	http://jgateplus.com
2.	ASCE	Civil Engineering	http://ascelibrary.org/journals/all_journal_titles
3.	IEEE / ASPP+IEEE	Computer, Electrical Electronics, Telecommunications Engineering Computer Science	http://ieeexplore.ieee.org
4.	Springer	Electrical and Electronics and Computer Engineering	www.springerlink.com
5.	ELSEVIER (Science Direct)	Engineering + Computer Science (Electrical + Electronics + Mechanical + Civil and Structural + Aerospace + Biomedical + Industrial and Manufacturing + Ocean Engineering + Computational Mechanics and Safety Risk, Reliability and Quality + Computer Network and Communications, Artificial Intelligence, Computer Science, Computational Theory and Mathematics, Computer Graphics and Computer – Aided Design, Information Systems, Control and System Engineering and Software	www.sciencedirect.com
6.	ACS Online Journal	ACS Nano + Environmental Science & Technology + Industrial Engineering Chemistry Research + Journals of Chemical Information and Modeling + Organic Process and Research and Development	http://pubs.acs.org

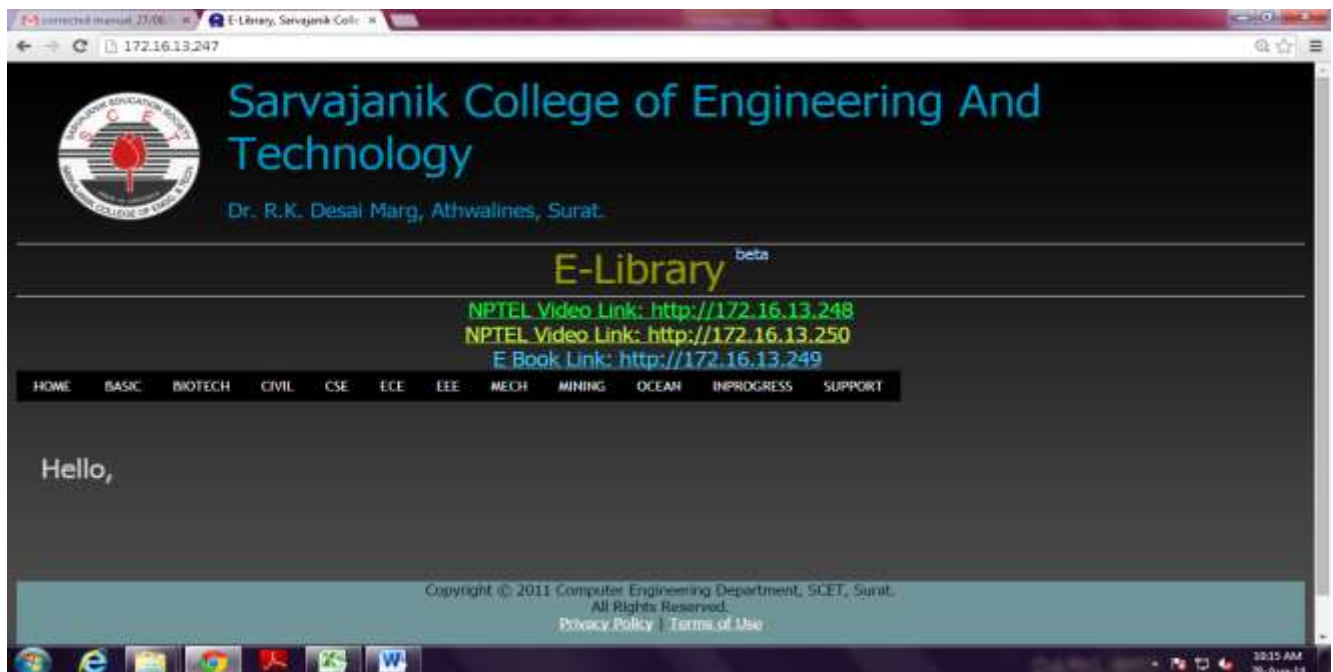

How to get learning material through NPTEL (National Programme on Technology Enhanced Learning)?

NPTEL provides E-learning through online Web and Video courses in Engineering, Science and humanities streams. The mission of NPTEL is to enhance the quality of engineering education in the country by providing free online courseware.

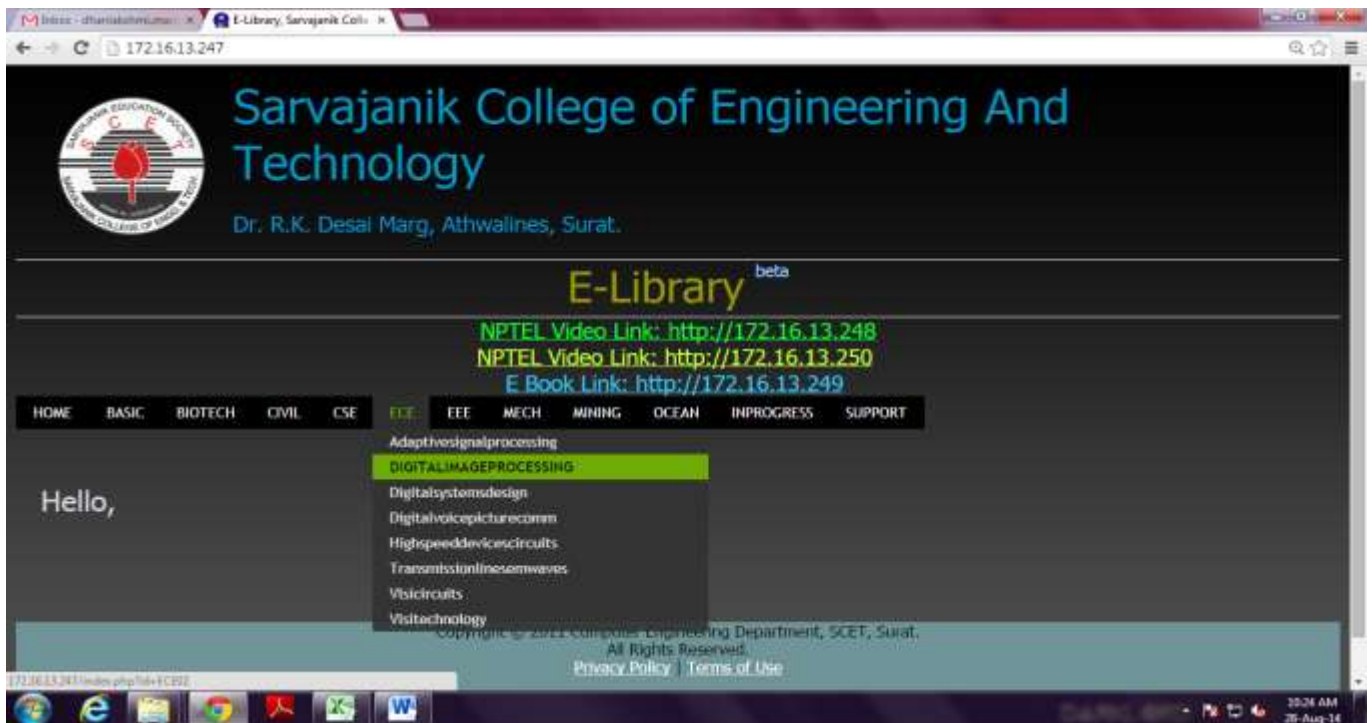

- 1) Search “172.16.13.249” in any web browser (in SCET campus). The following page opens:

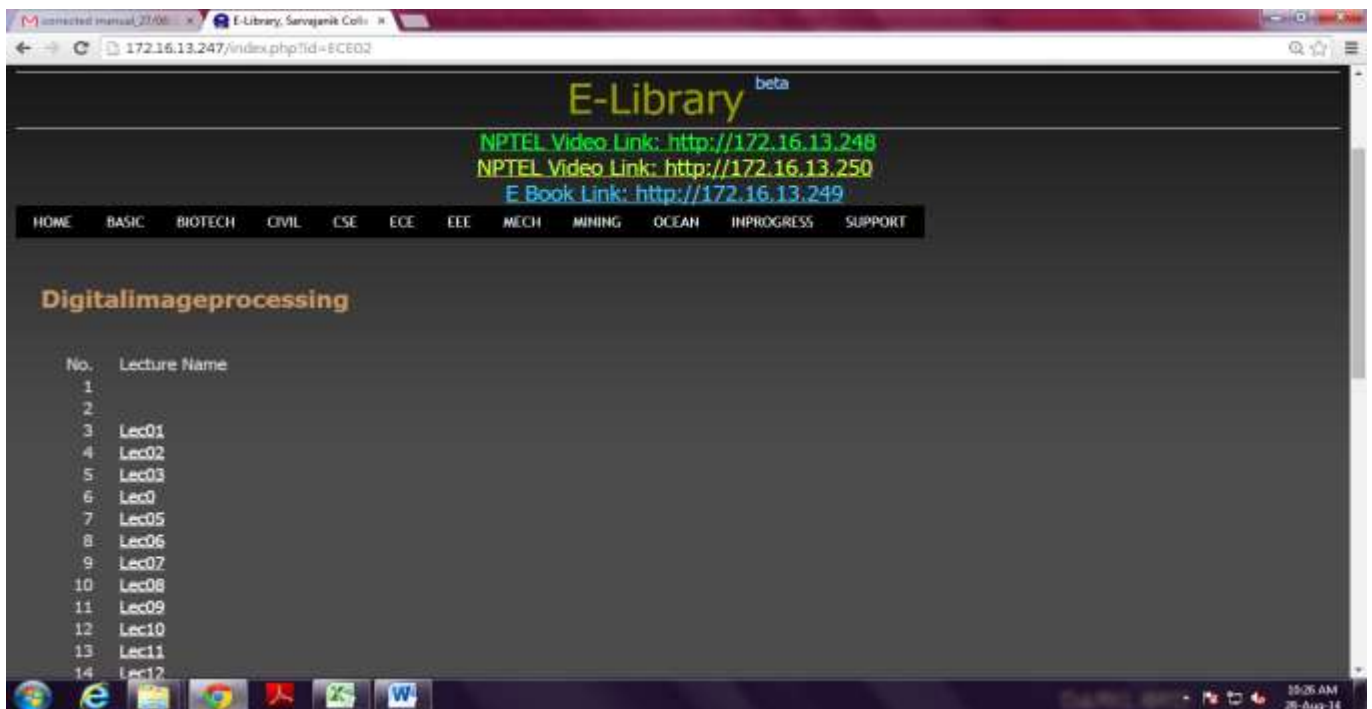

- 2) Once you click on any link <http://172.16.13.247/.248/.250> below shown page opens containing list of departments.

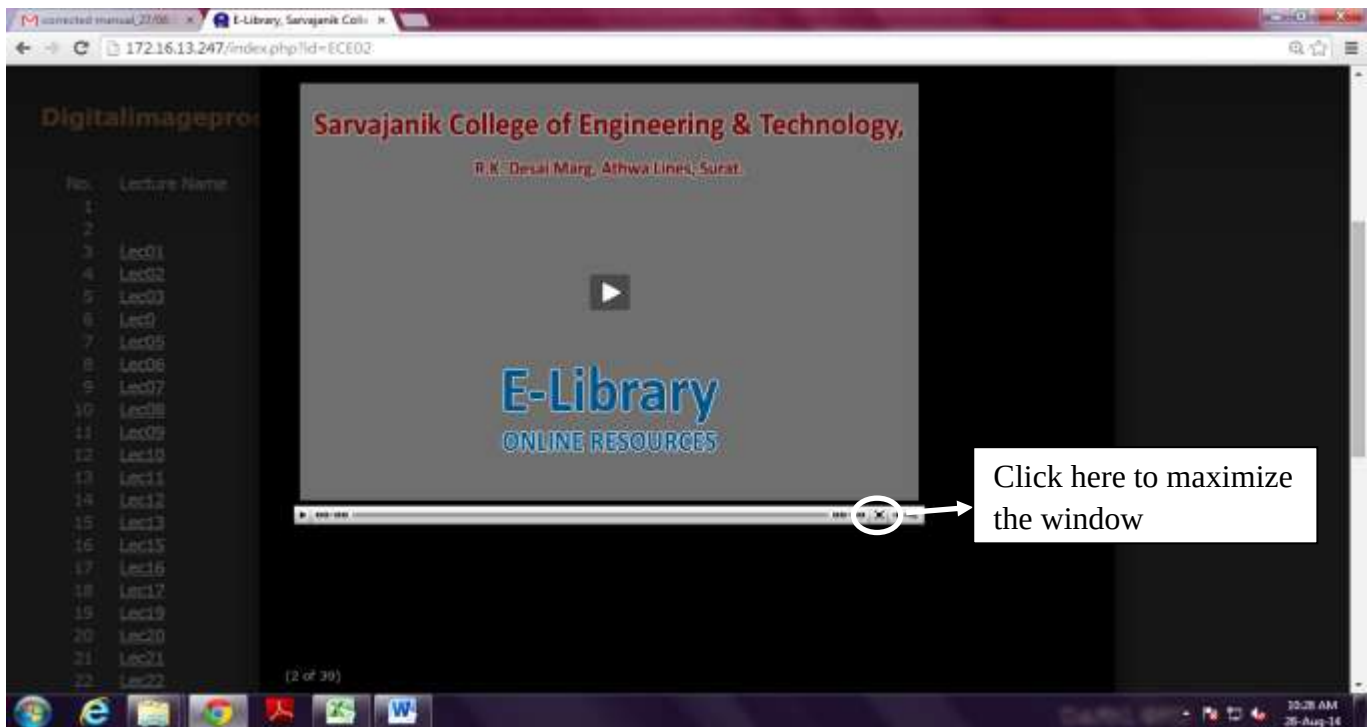

3) Click on your respective department to open any subject of your choice.

4) After clicking on a subject the list of video links will be displayed.

5) Click on any video link to open the video.

The video starts.
